Mr. Mahesh Jindam
Managing Director
NewSoft Solutions Pvt. Ltd.
GSTN No: 27AAICN2242G1ZL

Attached: Prebid Queries

PRE-BID QUERIES

Sr. No.	RFP Page No.	RFP Clause No.	Clause Title	Query/Clarification	Justification (if any)
1	27	3.4, Point 1.2(c)	Technical Evaluation Criteria – Project Experience	The estimated value of this project is approximately ₹1 crore. Then what is the relevance of awarding full marks only to those bidders who have experience in handling projects valued at more than ₹1000 crores? Will SMC consider revising this to make it more inclusive?	This is an unfair benchmark that discourages competent startups. The condition seems disproportionate to the project's size.
2	16	3.4, Point 1.12	Turnover Criteria	Given that the project value is only ₹1 crore, isn't awarding 10 marks for companies with ₹3 crore+ turnover unreasonable? Can this criterion be revised?	The turnover benchmark is overweight compared to project value, limiting startups' competitiveness.
3	36–37	5.4	Technical Criteria (Innovation & Experience)	Will SMC consider a separate evaluation track for startups that rewards innovation, in-house developed platforms, or pilot projects, even without large-scale project experience?	Startups often lack large government project exposure but offer unique and efficient solutions.
4	16	1.12	Eligibility – Financial & Certification Requirements	As per Startup India (GFR Rule 170), DPIIT-recognized startups are eligible for exemptions from turnover and prior experience. Will such exemptions be allowed in this tender?	This inclusion would promote startup participation in line with national policy.
5	15	1.10 / 1.14	EMD Clause	As per GFR 2017 (Rule 170), DPIIT-recognized startups are exempt from EMD. Will this waiver be provided?	It aligns with Government of India's Startup facilitation policies.
6	22	2.6	COTS Software Customization	If a startup-developed solution fulfills all RFP functional requirements but is not a COTS product, will it be considered?	This supports innovation-driven participation even without a COTS base.
7	31	4.4 & Form Tech-12	Performance Security	Will SMC accept a 'Letter of Comfort' or performance undertaking from a DPIIT-accredited incubator instead of a Bank Guarantee for startups?	Startups may not have sufficient banking history or collateral; accepting alternatives promotes inclusion.
8	18	1.16	Joint Venture Participation	If a DPIIT-registered startup forms a JV with an experienced company and handles software development, will the JV be considered valid? Will the technical evaluation consider the startup's contribution?	Encouraging such JVs can bring innovation with assurance of delivery from experienced partners.
